Vol. VII. No. 98 | The County Seat Paper | NEVADA CITY, CALIFORNIA | The GOLD Center | MONDAY, OCT. 9, 1933

Returns On Shipments Of Gold Are Received

Congressman Harry Englebright in a long distance telephone conversation with Mint Master Hagerty in San Francisco this morning learned that the reports on gold shipments were being made at a maximum of 15 days after the shipments are received at the mint, which is not much longer than the old system, under which the mint itself handled the shipment. The average is around 13 days.

The first reports received gave credeits to the gold shippers ranging from $31.00 per ounce to $32.20 per ounce. Apparently one lucky shipper caught the gold market right at its peak.

The mint master stated that he was expecting daily an order from the U. S. Treasury abrogating the rule requiring an affidavit on the part of small gold producers.

The first returns on upwards of sixty gold shipments made by the Nevada City branch Bank of America since September 1, have been received here. The gold sold in London fo ran average of around $31 an ounce and the Federal Reserve Bank has credited the local bank with the several amounts involved.

According to local bank officials, it is not expected, even when the new system of selling gold is in good working order, that reports will be received here much inside of three weeks. As it is reports on shipments made around September 1, are just now being received by the local bank. These first shipments were made however, before the President's order of September 5.

The bank is given credit for 98 per cent of the gold sold, and the remaining 2 per cent will be paid when mail advices confirming cable reports are received.

GOLDEN CENTER MINE'S DIESEL IN OPERATION

The Golden Center mine in Grass Valley, is taking out enuogh ore to keep its 20 stamp mill operating steadily, according to reports.

The Cooley Butler interests, who own the property, recently installed a large Deisel engine that reported to be materially cutting the cost of production.

Recoveries are being made by concentration and flotation. The mine is developed to about the 1300 foot level.

L. S. Wincapaw is superintendent of the Golden Center mine.

TWO HURT IN UPSET ON DOWNIEVILLE ROAD

John Gray of Grass Valley and companion, Mr. Hartford received injuries yesterday when to permit J. Pizani to pass they drove their car too near the edge of the highway and the car overturned.

According to reports, the accident, which occurred a few miles this side of North San Juan on the Downieville highway, was purely accidental.

Gray received severe abrasions on the scalp and one hand while Hartford suffered lacerations of one leg and arm.

The injured men were brought to the Nevada City Sanitarium where Dr. A. H. Tickell cared for their injuries.

QUAKER HILL HOUSE BURNS TO THE GROUND

The National Forest Service was called on Friday to fight fire in the Quaker Hill region when the Quaker Hill house, formerly knowns as the Sargeant hotel, caught fire, burned to the ground and ignited the surrounding forest. Thrity five acres was burned over before the fire was brought under control.

HUNTERS BAG FAT BUCK NEAR NOR. BLOOMFIELD

A party of hunters composed of Francis Hogan, Earl Ravin, Vic Gates, E. Robinson, Al Robinson and Pete Vance enjoyed hunting near North Bloomfield yesterday and were successful in bringing in one of the finest bucks of the season.

The big buck weighed 194 pounds and carried a freak set of horns with three points on one side and seven on the other. The horns had a 21 inch spread from tip to tip and must have looked like a regular forest of horns to Earl Raven, who killed it.

The deer being very fat the hunters thought he was an old one.

OROVILLE LADS LOSE TO NEVADA CITY GRIDDERS

(By THE CUB REPORTER)

In a lively game in which Nevada City gridiron reserves were given a chance to prove their metal, the local lads walloped the Orovillians on their own campus Saturday to the tune of 26 to 0.

Nevada City kicked off at the starting whistle to Oroville on Oroville's thirty yard line. Nevada City held Oroville there until Oroville punted on the last down to Tamblyn on the Nevada City forty yard line, from which Tamblyn ran the ball fifteen yards to Oroville's forty-five yard mark. Then on a series of bucks and reverses, Nevada City ran the ball to Oroville's ten-yard line where it lost the ball on a fumble. Oroville recovering the fumble, punted to Tamblyn again, who received the ball on Oroville's thirty-five yard line, and ran with it back seven yards to Oroville's twenty-eight. Then on Oroville's ten yard line Tamblyn made a trick pass to Pierce, who scored Nevada City's first touchdown. Nevada City failed to convert.

Coach Barron eased off for the rest of the half by sending in several reserves. The half ended with the score, Nevada City 6, Oroville 0. Early in the second half Doyle went over the goal line on a delayed spinner from the four yard line. The convert, a pass from Doyle to Tamblyn was successfully made, making the score at the end of the half, Nevada City 13, Oroville 0.

Then Nevada City kicked to Oroville, and held them for four downs. Oroville kicked to Tamblyn, who, catching the ball on the fifty yard line, ran it back twenty yards to Oroville's thirty yard mark.

After a series of off tackle plays and end runs which brought Nevada City within scoring position, Tamblyn slid off his own left tackle from the four-yard line for the third score. A pass from Tamblyn to Celio made the convert.

Nevada City kicked off to the twenty yard line of Oroville's from which Oroville ran it back to the fifty yard line. Oroville there lost ten yards in three plays and kicked from the fifteen yard line. The quarter ended.

Nevada City took the ball on the fifty yard line from where a march down the field landed the ball on Oroville's five yard line. Tamblyn fumbled on the five yard line. Oroville recovered and attempted to punt. The kick was blocked by Nevada City. Steger went over for a score on a line buck but it didn't count as Nevada City was charged and penalized twenty-five yards for clipping from the rear, giving Nevada City the ball, first down, and ten to go, on Oroville's thirty yard line.

Nevada City took the ball on a series of fast plays to Oroville's six yard line, where the ball was fumbled by Nevada City and recovered by Oroville. Oroville punted. The kick was blocked by fast work on the part of Rozynski, center, who fell on the ball for Nevada City. Nevada City had the ball on Oroville's six yard line just six to go for a touch down. At this point, Coach Barron sent in all his reserves. Doyle plunged over center on a quick opening play for a touchdown. Nevada City failed to convert, making the score, Nevada City 26, Oroville, 0.

Nevada City kicked to Oroville, Oroville went through Nevada City's secondary defense to within scoring distance, and were in a position to

(Continued to page four)

PROGRESS MADE IN RUSSIA SAYS U. C. OBSERVER

Prof. Lester C. Uren, nephew of Ed Uren of this city, born and raised in this county, was a visitor during the week-end in this city. Prof Uren is a member of the University of California faculty, teaching petroleum engineering.

During the summer he was the guest of the Russian government and traveled 4,000 miles in Russia, spending considerable time at Baku, the Russian oil area on the Caspian Sea. Prof. Uren is a keen observer and he noted many evidences of substantial progress made by the Russians under Soviet rule.

In the oil industry, he stated that in three "institutes," which their technical colleges are called, there are two thousands students who are making petroleum engineering their profession. These students on graduation must spend five years in the practical work of oil production, before being given posts of responsibility as engineers.

SECRET POLICE

The Soviet government oppressive in many respects, the whole country being permeated with espionage, secret police active everywhere. None may leave their village or city without police permission and a full explanation of their errand, and much less may they leave Russia. To guard against this there is a 25-mile zone established all along the Russian border, which is closely guarded at all time to prevent malcontents leaving.

The school children, according to Prof. Uren, are largely in the hands of the state, which molds them by means of movies, radio, news papers and school texts into enthuiastic adherents of the communistic government.

All the great palaces once occupied by the nobility, have, of course, been appropriated by the government which uses them either for governmental offices, or, as is the case in the Crimea, former winter resort of the Tsar and the aristocrats, as rest homes for workers whose health has been impaired.

NEW COMFORTABE HOUSES

The average citizen has little or nothing to say about the government and has practically no voice in its control. The country is ruled by the leaders of the communists.

While from a standpoint of standards in this country, said Mr. Uren, conditions in Russia are far inferior, as against former conditions, in housing for instance, there has been a vast improvement. In some places new towns have been built, leaving the old village standing alongside of them. Here, there is a splendid contrast. Neat little cottages of three and four rooms have been erected, streets have been improved, and these throw the old hovels of the Tsar regime into sharp contrast.

While it is true that Russians are not generally speaking mechanically inclined, they are gradually overcoming this obstacle, and are now making all their own machinery in exploring and developing their oil resources, which show every indication of being of tremendous extent and value.

FAMILY LIFE

While family life is reduced to its simplest terms, marriage and divorce being unencumbered by any ritualistic forms, the people seem well content and parents as found of their children as elsewhere in the world. The women, Prof. Uren said, are found in every walk of life, both in professional and laboring classes, and hold their own. This aspect of women in occupations usually occupied by men is much more noticable in Russia than in this country.

The train service, according to Mr. Uren, is unique. One must make a reservation days ahead, and even then is not sure he will find a seat on the day he wishes to travel. Trains are always crowded, no specials are run, and the timetable is ruled by its exceptions.

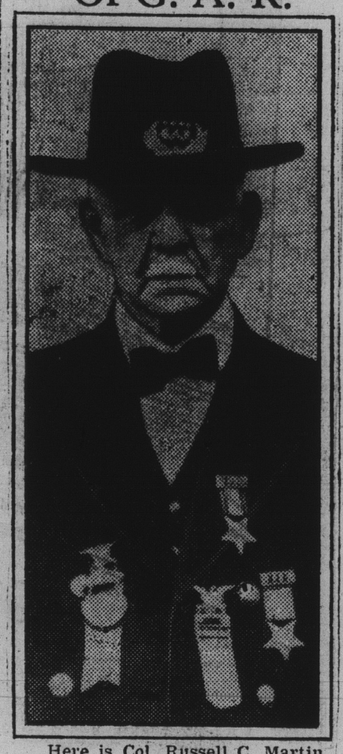
NOT MANY MOTOR CARS

Except around the cities few motor cars are seen. The offical classes use them principally, and Russia is now producing a kind of Ford. Highways such as we know, spreading all over the country, are non-existant. Only in the vicinity of the larger cities are roads comparable with those in this country.

Asked regarding the official view of Japan's extraordinary activity in Manchuria and northern China, Prof. Uren stated, that while the government officials looked with anxiety upon Japanese encroachments upon China, they were much averse to a war with Japan.

In fact the Russians observe annually an "anti-war" day, which correspondends in some respect with the perpardness demonstrations which this country staged preliminary to entering the World War. The Russians realize that they must maintain peace to develop their own program in the shortest possible time. they have also come to realize that the best way to bring the rest of the world into the communistic fold is to make a success of their own communistic government.

Elected Head Of G. A. R.



Here is Col. Russell C Martin of Los Angeles, elected Commander of the Grand Army of the Republic at the 67th annual encampment at St. Paul. Col. Martin has headed the G A. R. since the death of former Commander Wright, who died shortly after his election to the post.

LESSEES HIT FREE GOLD ORE IN CANADA HILL

The lessees on the 19th level at the Canada Hill mine have hit a pocket of quartz which contains quite an amount of free gold. So far work has not progressed far enough to tell whether this is a small pocket or not, but this newly opened ore is further to the north than any of the previous stoping and indicates a possibility of opening up something in that virgin territory.

The same group of lessees are cross-cutting to the north and expect to strike the known St. Louis vein within 50 or 75 feet. This work started a couple of days ago and is one of the principal steps of the major program for the development of the Canada Hill mine.

O. McCraney and Gordon Bettles took this property over early in the spring and have worked hard in reopening the property.

BYRON E. JANES WINS NEW HONORS AT U. C.

Word has been received that Byron E. Janes, graduate of the Nevada City high school has recently been honored by election to the Alpha Zeta National Agricultural Society.

The honor was conferred for scholarship, interest displayed and effort extended in the Agricultural Department of the University of California, and reflects great credit on the local high school as well as on the young man himself.

It is interesting to note that the Nevada City high school has in the alumni history three generations of the same family.

The late Mrs. Buffington was a graduate of the first high school of this city, her daughter, Mrs. Janes, graduated with honors from the same institution and was followed by her two daughters, Elizabeth and Catherine, and two sons, Byron and Addison, each of whom have also taken advantage of the privileges of the State University from which the two sons will graduate next spring.

Mine Owners To Meet And Plan N R A Code

Final plans for what will probably be one of the most important and intensive mining sessions to be held in th einterests of the industry were today announced by Edward Morris, managing director of Alta California, under whose direction the conference is being staged at Grass Valley on October 14th.

The organization has issued invitations to mine owners and operators throughout its entire 21 counties, urging their attendance at this session to discuss with leaders of the mining industry two major topics: first, the formation of a national association of miners, and, second, the formulation of a code under the regulations governing the National Recovery Act. Results of this conference will be written up in the form of a report and presented by a committee to be appointed at this session, to the nation at miners conference which is to be held in San Francisco on October 24th.

The Alta California session will begin promptly at 12:15 p. m. with a luncheon at the Bret Harte Inn. The luncheon will be followed immediately by a dynamic speakers' program. Among those who will address the assemblage are expected to be: W. W. Wagoner, well known mining engineer of Nevada City and W. W. Esterly, of the Grass Valley Mining Exchange, who will speak on local conditions; Capt. J. D. Hubbard, president of the Chico Mining and Oil Exchange, who will tell of plans for compensation reform movement; George W. Starr, president of the Mining Association of California, who will explain the purpose of the national meet in San Francisco; Senator Jerrold L. Seawell, who will explain ways and means of aiding the mining industry through legislation, and P. C. Stoess, Western representative of the National Gold. Mining Congress. Also, State Treasurer C. G. Johnson, widely known mining authority, is expected to be present, as wel las Representative Harry L. Englebright, who has done such splendid work in the interest of the mining industry in the last session of Congress and in the nation's capitol throughout the past year.

W. F. Downie, president of the United State Mines Corporation, who has for the past several months been working on a plan for the establishment of a series of custom mills throughout the Alta California counties, will be present and will give a resume of his completed plans for immediate and concerted action on th eerection of these mills.

THREE BEER LICENSES DENIED BY COUNCIL

Three beer licenses were denied at Saturday nights adjourned session of the city council. The three denied licenses were George Olson of Pine street, Woods and Hutchison, on Pine south of Broad, and Haddy's Coffee Cup. Complaints against all three establishments had been lodged with the city council. The council stated that other places which have had complaints of disorderly conduct against them would lose their beer licenses unless the owners maintained order.

The board also took final steps for the purchase of the swimming pool and park site at the end of Park avenue. Title searches have been completed on parcels of land to be purchased from the Young, Marsh, Goede, Dunlap and Coughlan holdings.

IMPROVEMENT BEGUN ON HAYPRESS ROAD

William Gracey, of the National Forest Service, announced that work had begun this morning on the Haypress road near Sierra City. This the road that was under discussion some two weeks ago when the chamber of commerce of Nevada City and Grass Valley sent a good-will caravan to Sierra county communities to discuss with them their major problems, and help them as much as possible in their solving.

MURCHIE REPORTED IN GOOD ORE ON 1600 LEVEL

Capacity operation on excellent ore is reported at the Murchie mine, east of Nevada City, where the 200 ton mill is treating ores from several levels.

The Murchie has a crew of 220 men employed, according to last reports, on three shifts.

Recent development work on the 1600 foot level is said to have produced excellent results and production is now said to average around $70,000 monthly.

SLOW HEADWAY IN SALES TAX REPEAL DRIVE

By MELVIN LORD

SACRAMENTO, Oct. 9—(UP)—In order to speed final consideration of the $170,000,000 great central valley water project, Governor Rolph called a special election for December 19.

The special election was considered necessary if the project is to gain any federal aid under the National Recovery Act. To wait until the general election in November, 1934, would have made such aid out of the question.

Meantime battle lines are being drawn, with Senator J. M. Inman, Sacramento, claiming that proponents of the water revenue bond act will find their chief adversaries to be the private power interests.

While there still is time for the initiative against the 2½ per cent sales tax to qualify for the special election, state officials believe the campaign against the tax is moving slowly and consider it unlikely the necessary 110,811 signers will be obtained in the near future. These officials are particularly anxious that the tax, not considered perfect, by any means, be given a fair trial.

Mrs. Rheba Crawford Splivalo, director of the state department of social welfare, has a number of movie offers under consideration, but is afraid the 15 pounds she gained recently may bar her from the screen. The big trouble so far, however, has been the failure of the movie companies to offer her a story with the property message on humanity and social welfare.

Once famous as the "Angel of Broadway" when she worked with the Salvation Army, a story of the Salvation Army may be worked out for her.

In the opinion of Ray L. Riley, California has placed its state government on a solvent basis as a result of passage of the sales tax. In support of this claim he pointed out that the market demand for California bonds is increasing steadily throughout the United States.

Having worn boots ever since he was five years old, Governor Rolph finally had to give up and don a pair of plain shoes. An attack of rheumatism made the process of pulling on the famous Rolphian boots too painful, and shoes were ordered by his physician until his feet are back to normal.

Earl Lee Kelly, state director of public works, and C. H. Purcell, flatly denied there has been any discrimination in the change of specifications for cement to go into the Oakland-San Francisco bay bridge. Both officials said that all major cement companies could furnish the cement required. It had been charged that the specifications favored one particular company.

SHAFT DOWN 23 FEET REVEALS FREE GOLD ORE

Otto Gruenwald, owner of the claims in the Yellow Diamond mining section near Indian Flat is sinking a shaft on a ledge with one foot of ore that shows free gold. The shaft is now down 23 feet. On the other side of his property he has run a tunnel 300 feet in length. He states that he has a good prospect.

THE SALES TAX

Repeal the sales tax? It may sound attractive, but what have its adovates to offer as a substitute, inquire many California editors.

Would they plunge the state into hopeless insolvency, close the schools for lack of funds, return the burden to real estate, or adopt a combination income and transaction tax?

Tax burdens should be equalized, said the Pasadena Star-News, with the spread made as thin as possible to prevent any group from being taxed excessively, adding: "In accomplishing this, it is to be expected that there will be writhing and grumbling and criticizing and opposing among those who have been exempt from bearing their fair share of the tax burden Those who have the good of the state at heart will go forward with this equalization process, regardless of all the criticism and opposition of those who heretofore have been shirkers in the matter of being taxed."

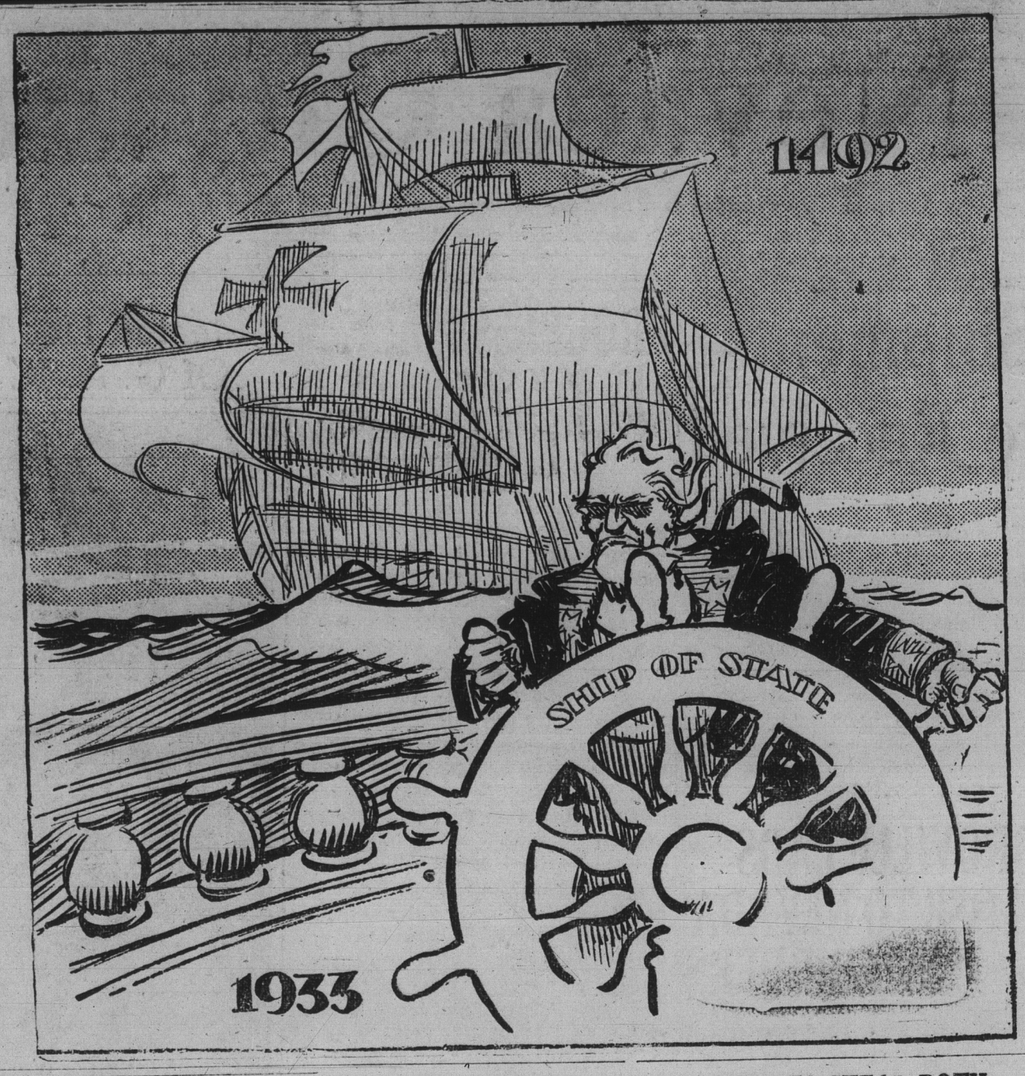
"Although petitions are being circulated for a referendum on the sales tax," comments the Marysville Appeal-Democrat, "all who are concerned for the orderly and safe transaction of the state's business will hope that the movement fails. No one who is opposed to the sales tax has yet advanced a substitute that will keep California out of almost hopeless insolvency. To kill the sales tax now would be to pile up a gigantic deficit from which we coud not extricate ourselves for years and then probably only through a levy upon real property."

"We spurned the tax on real estate when we voted for the Riley plan," remarks the San Diego Sun. "And the action was logical to many, although the Sun pointed out the weaknesses of the plan and predicted the situation that now confronts us. The burden on real estate is even yet too oppressive. As for the other alternative it includes a form of sales tax and an income tax, hence it would be even worse than the sales tax."

The Beverly Hills Citizen believes that "while the sales tax is an interruption in the smooth conduct of business and to many comes as a hardship even in the small amounts subtracted from the purse of the individual, the state cannot afford to go into bankruptcy and must take care of its obligations. If it, like the individual, spent too much in the spending days there is no way out of it than to pay the piper."

"It is fairly reasonable to assume that the issuance of tokens valued at one-eighth of a cent, to be used in collection of the sales tax by business houses is not going to popularize that measure," in the opinion of th eSalinas Index-Journal. "The people as a whole have not taken kindly to paying an extra cent or two on small purchases, and when they are told they will have to carry tokens around with them to provide for the tax on sales amounting to five and ten cents, there is bound to be increased dissatisfaction."

"We suggest," Concludes the Valleyo- Times-Herald, "that those sponsoring the referendum on the sales tax be reasonable enough and fair enough to propose a substitute. The fact that they have not done so shows the weakness of their cause. X X X We are not championing the sales tax because we like it—but because the citizens of the state of California are at the bottom of a deep financial pit and it seems to be the most satisfactory ladder to use."



WEEKLY COMMENT

By CHRISTIAN ANDERSEN

John L. Lewis of the United Mine Workers has the appearance of the old time villain in the play, mouth drawn down, heavy brows, wrinkled forehead ,a sort of "give me the papers or I'll tear up the child," appearance.

General Johnson, head of the N. R. A. looks drawn and worn. I hope he will not break in health until his job is finished at least. He won't be the first man who has given his life for his country.

Many herds of cattle have come down from the hills lately and although the cowbells are each of a different tonal quality, at a distance they give the impression of a well tuned musical roar, if you can imagine such a peculiarity. With each herd ride the brave vaqueros and the whole picture is one which thrills the kids around our place as nothing else can do.

Many years ago when Dustin Farnum was playing on the legitimate stage, I saw him play the part of the "VIRGINIAN." In one scene he dramatically put his hand on his gun and in answer to some slight uttered by the villain of the piece, said: "When you say that, smile," and the villain wisely did smile. We thought this was the supreme moment.

I can not account for this next story or why I should tell it. It is a true one and a part of life which may be sufficient reason. A small manufacturer of food products in a small town wished to retire from the business. In turning the business over to his son, he said substantially as follows: "Well Jim, if you run into anything you can't quite figure out I want you to fell free to call on me for advise. You must know that I know the tricks." The son answered: "There are no tricks in the making of food products except these: make the product as good as possible, then merchandise it correctly, and the business will be successful." This sort of business policy has proven itself so often, that it needs no comment.

In Pacific Grove, there lives an elderly lady. She is in possession of all the faculties of the true artist. She has a collection of Indian arrowheads numbering over 1200 and many other Indian relics. But the thing I started to tell you is that when we were out on the beach hunting arrow heads with her, she would say: "Come to me little Indian maid who walks with me," and before the hunt was over this old lady would find at least one arrowhead. I cannot explain the phenomena, all I know is that the story is true. She was under my own observation. I will gladly tell her name if any one wishes to see these Indian arrowheads.

NO TURKEY SHORT WEIGHTS THIS CHIRSTMAS

SACRAMENTO, Oct. 9—(UP)—There isn't going to be any short-weight turkeys sold to the public during the coming holiday season if J. S. Casey, state sealer of weights and measures, can prevent it.

In a warning to housewives, Casey advises them to disregard the weight tag and demand the birds be weighed at time of purchase. A sharp eye should be kept on the scales, he said.

Casey also stated his department planned additional protection for turkey purchasers through a series of surprise inspections of sellers' scales.

THIEVES STEAL BOTH WATCHDOG AND CAR

LODI, Oct. 9—(UP)—Loss of his car was bad enough, A. L. Brown of Redlands told local police, but the circumstances attending the theft were exasperating, to say the least.

The motorist said he had parked the machine at an auto camp near here. In it he placed his watchdog to guard the property.

When he returned he discovered thieves not only had made off with the car, but taken the dog as well.

VISALIA AVOCADOS ARE OUT OF DEPRESSION

VISALIA, Oct. 9—(UP)—The avocodo "depdession" apparently was ended here today.

The city's famous avocado tree, growing next door to the fire station, bore no fruit last year, despite the anxious care bestowed on it by firemen.

This year, however, the crop promised to be the largest in years.

DIDN'T HURT HIM

LOS ANGELES, Oct. 9—(UP)—Hurled 40 feet in his automobile by a passenger train, Patrick N. Doris, 50, escaped with only minor bruises, although his car was demolished.

CAMPTONVHLLE

By ACTON M. CLEVELAND

CAMPTONVILLE, Oct. 9—Miller Ranch C. C. C. camp No. 597 became extinct in California Thursday when the remaining part consisting of eight men left Thursday for Fort Knox, Kentucky, the bulk of the camp having been transferred into company 568 at De Sabla a week ago; this apparently ends the re-forestation work in this section for this year.

It was hoped and planned by Forest Service officials to continue this camp as a winter camp at Freemans Crossing, seven miles south of here out of the snow belt, but this was tabooed by the last camp commander, Lieut. J. A. Pierson, of the Navy, who came here from a battleship and did not like the backwoods and recommended that the camp be completely removed. Thus cutting the season short, the men worked but three full months, and left in the midst of a bad fire season, contrary to the purpose of the C. C. C. movement, and a display of incompenancy in management and command as far as the good of the country is concerned.

The Kentucky boys expressed regret at leaving, and spoke a word of appreciation to many of the local people for the fine treatment that was extended them during their stay here.

—o—

Miss Dorothea Mark arrived Friday from Sacramento to spend the week end with her grandmother, Mrs. M. J. Cunningham.

—o—

HIGH SCHOOL HONOR FOR CAMPTONVILLE GIRL

CAMPTONVILLE, Oct. 8—Miss Dorothea Mark, recent graduate of the Camptonville branch of the Marysville Union high school, now attending the San Juan high school, near Sacramento ,was one of four students to be on the honor roll out of an enrollment of 320. This is an honor for the young lady to acquire on her first venture in school away from home, and also reflects credit on the Camptonville school in preparing her to make this grade in such a large school.

—o—

FOREST

FOREST, Oct. 3—Mr. Ramelli and daughter, Mr. R. McIntosh and son of Downieville, visited our high school Monday.

Mrs. Clyde Fiske and son of Nevada City are visiting the E. J. Wyllie family this week.

BURROS TOO SMART FOR DEER HUNTERS

KERNVILLE, Cal., Oct. 9—(UP)—That old desert mystery, where do burros go during September, was believed to have been solved today.

According to Mojave desert residents, each September all burros not anchored down disappear for a few weeks. They drop from sight as completely as though swallowed by the earth.

J. C. Howe, packer, trapper and lion hunter, who owns a large herd of the beasts, says the burros disappear because they are intelligent.

"Deer season is open in September," he said. "The burros know better than to stay around where they may be mistaken for deer."

FOREST FIRES START AS C. C. C. BOYS DEPART

CAMPTONVILLE, Oct. 7—In less than an hour after the last eight Kentucky boys had left town for their home state, being the last eastern consignment from Miller Ranch C. C .C. camp No. 597, three forest fires broke out five miles south of here on the Marysville road. The fires appeared to be of incendiary origin, but were set in a place where it did not spread rapidly, and Fire Guard A. H. Hamilton from the local forest service headquarters with a small crew of men rushed to the scene and in a couple of hours had the fires under control. Temperatures and humidity are as bad this week as they were during any time of the summer months, and the fire season is still prevalent.

ATHLETES PUT TO WORK IN LAUNDRY

FRESNO, Oct. 9—(UP)—About this time of the year, when talk turns to subsidization of college athletes, the Fresno State College administration has a neat suggestion to offer.

The college invested $750, appropriated last spring by the board of directors, in a giant washer, mangle, wash trays a 30-gallon storage tank and 1500 towels.

The project originated in the minds of students and alumni anxious to provide employment for athletes. Thirty hours weekly employment for 20 men was provided at the opening of the current semester.

And the project, incidentally, saves the college a substantial sum in towel laundering.

—o—

WIFE CHARITABLE

VISALIA, Oct. 9—(UP)—Because he charged, his wife obeyed a religious cult's injunction to "sell what you have and give to the poor," Osborne Holt of Porterville today sought a divorce from Mrs. Fannie Holt. He also sought custody of their children.

—o—

Mr. and Mrs. Frank Grady of Oakland motored up Saturday and remained until Sunday afternoon visiting his mother, Mrs. L. R. Robins.

SOCIAL EVENTS

Birthday Party for Little Mary Libby

Mrs. W. G. Richards assisted by her daughter, Mrs. Merritt Rector, an aunt, entertained the former's little granddaughter, Mary Libby, Saturday afternoon at the beautiful Rector home, on the little girl's ninth birthday.

A happy time was spent playing games on the big lawn. Mrs. W. G. Richards played a march and all the children led by Mary Libby and Betty Lou Krough, the latter's birthday also coming on the same day, marched into the artistically decorated dinning room where a prettily appointed table held as its central feature a delicious birthday cake. Tiny baskets that were used at the wedding dinner of Mary Libby's mother were at each plate.

Mary Libby's home in in Eureka and she is visiting with her grandparents, Mr. and Mrs. W. C. Richards, until Christmas time.

Those present for the happy affair were Rose Mary and Carol Ruth Richards, of Auburn, cousins of Mary Libby; Madeline Bettles, Betty Lou Krough, Elsie Schreiber, Rheba Telfer, Barbara Jean Mitchell, Adrian Barnhart, Helen Barker, Bernice Harrington, Jeanette Walder, E. Bailey, Leovn Gates and little Mary Libby.

Mary Libby was the recipient of many pretty birthday gifts.

After the party Mrs. Rector presented each little guest with a little gift in memory of the event. Mrs. W. G. Richards also presented each with favors of tiny dolls.

Betty Lou Krough Celebrates Birthday

One of the happiest little social affairs given in some time, occurred yesterday at the home of Mr. and Mrs. Brian Krough, when they gave a party in honor of the ninth birthday of their daughter, Betty Lou.

A pink color scheme was used throughout the rooms and on the prettily decorated table where two delicious birthday cakes held the place of honor. One cake was made in honor of Mary Libby, a little playmate, whose birthday occurred on Saturday. Beautiful pink fall flowers were used in profusion, a dainty pink crepe table cloth and napkins, rose bud candles, pink bon bons and nine tiny pink candy baskets and pink dishes cast a glow over the happy gathering that will linger long in their minds.

The children enjoyed playing a number of games among them a bean game that Catherine Davis won first honors in guessing the number, while Mary Libby guessed low. In a memory game, Barbara Mitchell was first with Betty Foote last.

Those present to enjoy the happy afternoon were Catherine Davis, B. Lou Krough, Elsie Schreiber, Madeline Bettles, Barbara Jean Mitchell, Mary Libby, Levon Gates, of Nevada City, Marie Clary of Grass Valley and Betty Foote of North Bloomfield.

Little Miss Krough received many pretty gifts.

Nevada City Ladies Guests of Mrs. Roesner

Mrs. E. M. Roesner was hostess at a bridge luncheon at her home on Main street, Grass Valley, on Friday at one o'clock. Guests from Nevada City were: Mesdames Arthur Elliott, Ed. Uren, H. E. Kjorlie, Otto E. Schiffner, Charles Leiter, Lyman, Harold Curnow, Katherine Celio and N. McCormack. Mrs. Celio held high score at auction and was the recipient of a pretty prize.

Conference of Women's Clubs Meets Wednesday

The Tri-County Conference of Women's Clubs will meet in Placerville next Wednesday.

Several members of the Woman's Civic Club of Nevada City have signified their intention of attending.

Mr. and Mrs. John Du Pratt and family of Reno, were guests of Mr. and Mrs. Otto E. Schiffner yesterday.

Elks to Entertain Deputy Grand Ruler

Nevada City Lodge of Elks are making plans to entertain their district deputy grand exalted ruler who comes from Susanville.

He will visit the local lodge Tuesday, October 24.

Percy Carr is exalted ruler of the local lodge of Elks.

Methodist Church to Present Evening of Drama

Plans are being made by the Methodist church for a benefit entertainment that is to be held Thursday evening, October 19, at which Mrs. Raglan Tuttle will present an evening of drama.

The proceeds from the entertainment are to be used to make repairs on the church before the winter rains start.

LOCAL HAPPENINGS

Miss Ruth Hogan motored to Berkeley last week end and attended the St. Mary's-California ball game. Her sister, Mrs. William Morgan returnned with her for a visit in Nevada City with her mother, Mrs. Tom Hogan and other relatives.

Bruce Wallace, superintendent of the Mack Mines, Ltd., south east of Nevada City, is making repid progress in his sinking operations in the new hard rock shaft he started a few days ago. The crew of five men have the shaft down to about the 50 foot level.

I. L. Putman, of Marysville, was a Nevada City visitor yesterday evening. Mr. Putman who is owner of the Blue Goose Auto Court, between Marysville and Yuba City, says that the later part of the season has been on the "up and up" and he is of the opininon that things are much more normal than for some time past.

(Continued from page 1)

FOOTBALL

score as the final gun sounded.

The vital power of the local team, says Coach Bev. Barron, was the ability of the line to charge on both offense and defense. Only one touch down was the result of a pass—the other being due to line bucks, from about the five yard line. Coach Barron was well satisfied with the team's success, which he said was partly due to the knowledge of line plays gained in and after that numerous trick passes were held in reserve, not being essential to scoring as Nevada City scored easily with line bucks.

The outstanding players of the game in the line were: Rozynski, center, Fred Browning, tackle, M. Doolittle, guard, L. Haddy, tackle, Gove Celio ,end.

Mr. and Mrs. Thomas Duhane and son, Tom Jr., of Sacramento, spent the week end with Mr. and Mrs. J. F. Dolan, in Nevada City.

Miss Minnie Brand returned home Sunday evening from a ten day's visit in Sacramento with her sister, Mrs. Ralph Gaylord and family.

One Simple Change that Modernizes the Home
GAS HEATING

"OUR greatest home convenience," hundreds of thousands of our domestic gas consumers say of Gas Heating.

With Gas Heating, a control valve or a dependable thermostat is their fire tender or furnaceman. These homes are never overheated with wasted fuel — never chilly from neglected fires. The temperature is readily maintained, whole house warmth, in any weather.

Today the almost universal acceptance of Gas as the preferred fuel is chiefly for its cleanliness and convenience. It comes ready made and ready to use—piped directly to the gas heating appliance. The outstanding preference for Gas fuel is convincing proof that Gas is the modern fuel for California homes and California climate.

Why not get the facts about Gas Heating as these customers of ours have done? Once you do this you too, will install Gas Heating in your home for the coming winter.

BUY NOW—before prices advance
Cost of all materials that go into gas appliances have gone up. Labor costs too have risen. But prices have not yet risen on gas heating appliances. Be wise—buy gas heating appliances now.
